Infiniti KMT Agile Project Notes

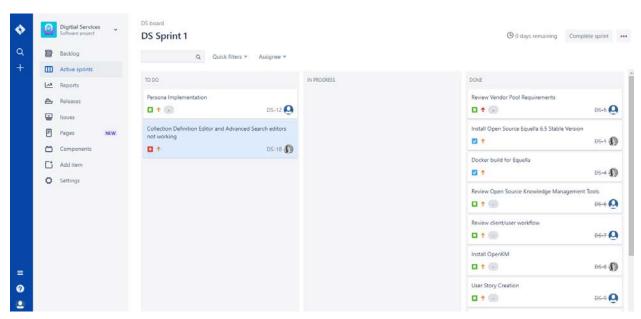

This document shows some screen shots of the Jira board which the Infiniti team used to manage this agile project, as well as a screen shot of Confluence which we used to track artifacts.

The screen shot below, which was taken mid-way through the project, shows the Jira Digital Services (DS) board which our team setup to support the agile project. This Jira board was used throughout the development of the KMT prototype.

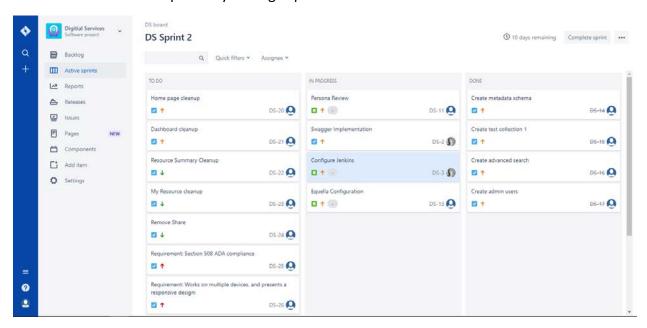

This screen shot shows the back log during sprint 1.

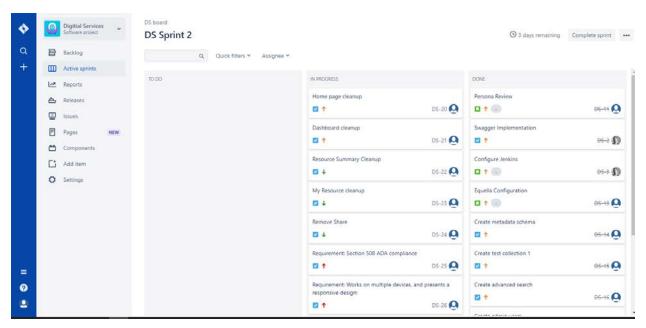

This screen shot is from near the end of sprint 1.

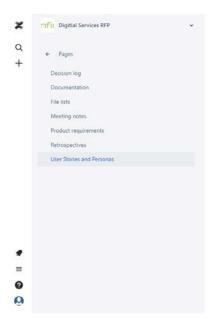

This screen shot is from part-way through sprint 2

Further along in Sprint 2:

Shown here is our Confluence Space that was used to track Personas, user stories, and sample knowledge articles.
